PLAYGROUND PLUS!

Playground Plus introduces fun and creative games, activities, and initiatives in a skills-based context. While the program focuses on playground specific activities, the lessons learned are valuable skills to a developing brain both on and off the playground. Most importantly, we love to have fun at the playground and out on the field!

- We play both typical and unique games •
- We're learning important life skills while we have fun! •

**Registration Open Now Through
February 19th!**
