LEGO Sports Spectacular!

Explore sports ranging from gymnastics to biking, mini-golf to soccer! Some lessons focus on the importance of physical fitness and different aspects of fitness, such as stamina and strength. Other lessons describe the mechanics of the sport, such as the physics involved in golf and the components of a stationary bike. The best part for the students is pairing up to build moving LEGO® models and the fun they have playing with them after they're built - hitting a plastic golf ball with the mini-golf model, watching the gymnast spin around the bar, and "shooting hoops" on the basketball model. Maybe they'll be inspired to try a new sport, or build a model of their favorite sport!
