

Performing Puppets!

Come join us for games, songs, and puppet fun in this high energy puppet performing class! Together, we will learn how to think creatively, explore our imaginations, and become different characters through the puppets we create with our friends! That's right, you'll get to construct your very own puppets out of all kinds of fun materials, and you and your puppets will be the stars of the show! New and classic performing arts games alike will help us tell stories together using our imaginations and feel confident while sharing ideas and creating cool and wacky puppet personalities with you. So, get ready to have fun and get silly together while we learn, grow, and explore the world of Performing Puppets!

1st-3rd Grade – Tuesdays (3:45pm-4:35pm)
