

# Creative Writing:

## *Playwriting!*

Combining storytelling with playing make-believe is the best! Get your friends in on the story too by writing a play!

Most students enjoy being part of a play, but have you ever been the one who writes it?

In this class, students learn how to structure a basic short three act play, learning about narrative story structure, creating characters, and writing fun dialogue that feels like real, as well as exploring costume design and set design with simple materials found in the home!

Learning all about the different facets of playwriting enables students to slow down and breakdown the stories and media they consume. These are skills that can crossover into a student's everyday school life, as well as give them an outlet for creative expression on their own time!

**Tuesdays (3:45PM - 4:35PM)**

**November 3, 10, 17; December 1, 8, 15; January 5, 12**

(No Class: November 24: December 22, 29)
