Programming Stories With Scratch

Thursday
2:50PM - 3:35PM
11/5 - 1/14/20

*Prerequisite:
One Digital Dragon
Scratch Course

Do you love to write and illustrate your own stories? Students will embark on an adventure to create multimedia projects, bringing their creations into the digital world.

We'll use digital design tools and the Scratch programming language to create games and stories to share with family and friends. Students will learn how to create custom art assets, develop exciting story narratives, and code their projects to make interactive adventures.
