

3D Paper Art Globetrotters!

Come take a trip around the world, using folded-paper to help us explore countries and cities across the globe (including some familiar sites in the United States)! We'll cut, fold, and shape sheets of paper into some of the earth's greatest landmarks, buildings, and natural features. We'll dive into history, see how ancient civilizations have left their mark on the earth, and learn about modern-day features and lifestyles that countries are known for. So hop on board as we fold our way through this 3D paper adventure across the globe!

DK/TK-Kindergarten: Mondays (3:00pm-3:45pm)
1st-3rd Grade: Mondays (4:00pm-4:45pm)
