# ***3D Design with Tinkercad***

**Tuesday  
4:00PM - 4:45PM  
1/19 - 3/16/21**

Learn the core skills of 3D design through TinkerCAD, a unique platform for developing 3D objects that can be used for printing, game design, or anything you can imagine. This class will introduce the fundamentals of modeling 3D objects, through fun and engaging projects. Students will explore the use of color, shape, and form to craft detailed objects and spaces.
