Art Studio: Portrait Art!

People and faces are all around you, especially in art! In this class, you will work with a real-life portrait artist to learn all about how faces can be created and used in your very own works of art! Each class will explore the elements of art to help build and develop students' confidence in their creative process; see how line, shape, texture, space, value, form, and color can be combined to produce wonderful portraits of yourself, friends, family, and more!

Materials will be provided.

3rd-5th Grade - Tuesdays (4:15pm-5:00pm)
