DARING THE DUNGEON

Become one of our intrepid storytellers using role-playing game systems to create your own characters and enter a story of wizards & warriors, astronauts & aliens, or a different fantasy realm of your creation! We can follow wherever our imaginations take us, even online! Virtually guided by our experienced instructor, Mr. Noah, students will learn how to imagine a character, how to work with other players to solve problems, and how to share the spotlight to collectively tell an amazing story that is enthralling for all participants. This is an exciting opportunity for kids to act out roles and do creative problem-solving in a fantasy world.
