

Woodworking

Covered Wagons of the Wild West!

From colonial times to the days of the Oregon Trail, American settlers traveled in covered wagons as they searched for land, gold, and new futures!

In this engaging class, you'll learn how to safely use woodworking tools to cut, sand, and glue it all together! You'll measure your pieces, learn about structure, support, and engineering, and design your own covered wagon model from scratch. We supply the tools and wood!

Use it to hold your allowance, game-controllers, and electronics, or bring it in to your classroom as you and your peers learn about western expansion, the gold rush, and more!

Online through Zoom – September 22 to November 17

6th-8th Grade – Wednesdays (3:10pm-4:00pm)

4th-5th Grade – Wednesdays (4:10pm-5:00pm)
