

Great Math Foundations

by

What Is It?

Problem solving and critical thinking activities so students can exercise "math muscles" and build number sense! All skill levels welcome!

When Is It?

Thursdays at MATES!

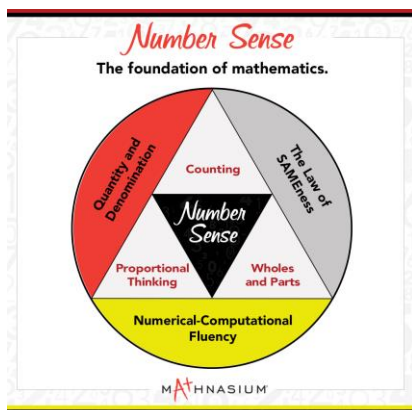

*Kindergarten – 1:40pm to 2:35pm
March 16 to May 18 (No class April 13)*

*1st to 5th Grades – 2:55pm to 3:55pm
March 16 to May 18 (No class April 13)*

Register At:

www.growingoutdoors.com

for dates, pricing, and to register online!

*The foundation of mathematics is **Number Sense** - the ability to appreciate the size and scale of numbers in the context of the question at hand.*

Mathnasium builds the deep understanding and lifelong love of mathematics that come from number sense.

Great Math Foundations are a set of fun activities inspired by the structured program delivered at Mathnasium Learning Centers.
