

Great Math Foundations

by

What Is It?

Problem solving and critical thinking activities so students can exercise "math muscles" and build number sense! All skill levels welcome!

When Is It?

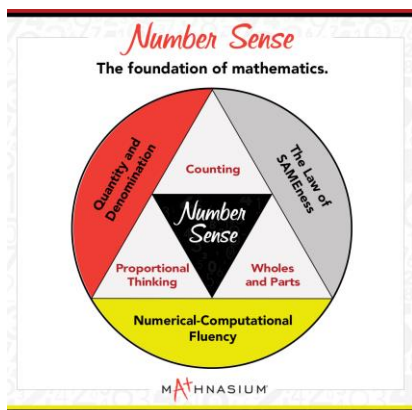

Wednesdays at Oak Hills!

*1st to 3rd Grades – 2:40pm to 3:40pm
March 1 to May 10 (No class March 8 & April 5)*

*4th & 5th Grades – 3:05pm to 4:05pm
March 1 to May 10 (No class March 8 & April 5)*

Register At:

www.growingoutdoors.com
for dates, pricing, and to register online!

*The foundation of mathematics is **Number Sense** - the ability to appreciate the size and scale of numbers in the context of the question at hand.*

Mathnasium builds the deep understanding and lifelong love of mathematics that come from number sense.

Great Math Foundations are a set of fun activities inspired by the structured program delivered at Mathnasium Learning Centers.
