

WOODWORKING ROBOT PROJECT

DECEMBER 4 - FEBRUARY 16

Do you like Robots? How about Woodworking? Join the Winter Woodworking exploratory as you create your very own Robot. This unique exploratory offers a hands-on experience where you get to create your own robot entirely out of wood! Our trained instructors will teach you how to cut, glue, sand, and more to be able to complete the project using the skills you learn. At the end of the session, you will add your own touches to bring your robot to life!
