TRAIN PROJECT SPRING TRIMESTER

All aboard the Growing Outdoors Express!!! This fall, we're building our own train to transport us to new places around the world. Trains are possibly the greatest mode of travel of all time, allowing us to discover different areas easily, transport supplies, and expand civilization! Our trained instructors will teach you how to saw, glue, sand, and more to be able to complete the project using the skills you learn. At the end of the session, you will add your own touches to your train, so it stands out wherever it goes!
